

# Jung Personal Preference Questionnaire

Developed by Carl G. Jung

# Jung Personal Preference Indicator

Reformatted by R. L. Roberts, PhD.

**Directions:** This questionnaire was designed to identify your primary preferences and identify your unique profile. The results of your responses will assist you in self-understanding and personal growth. Identify the degree to which each statement best describes you. Do not overanalyze. Often the first answer is best.

RATE YOURSELF ON EACH STATEMENT:	E	I	S	N	T	F	J	P
5 -- a lot like me								
4 -- a bit like me								
3 -- half way								
2 -- not much like me								
1 -- not like me at all								
<b>Place rating in the highlighted box only:</b>								
People interest me more than ideas or feelings.								
I like dealing with facts and details.								
I prefer to be logical about things.								
I like to keep to a schedule.								
I am hard to get to know.								
I tend to notice what is going on behind the surface.								
It is better to go with the heart than with the brain.								
I like frequent changes in my life.								
I am energized by being with people.								
I am a realistic person.								
I consider myself objective.								
I like to plan things carefully.								
I am a rather deep person.								
Some say I have my head in the clouds.								

Justice is more important than mercy.								
I am neat and orderly.								
I like being by myself.								
I often go by hunches.								
I prefer to deal with feelings rather than logic.								
I am very flexible.								
I am easy to get to know.								
I tend to take things at face value.								
I believe people don't use their brains enough.								
I like to be in control.								
I prefer to deal with ideas and feelings.								
I prefer getting an overall sense of what's going on.								
Compassion is my highest ideal.								
I am a spontaneous person.
